CAREER OBJECTIVE

Looking for an entry level position to Kickstart my career in software field which will contribute to my professional and personal growth.

PROFESSIONAL SUMMARY

- Knowledge in the area of **Java Full Stack Development**.

- Keen knowledge of SQL, Hibernate, and JDBC.

- Familiar with Manual Testing and testing tools like JUnit, TestNG.

- Hands-on experience in HTML, CSS, and JavaScript for web development.

- Experience working with Visual Studio, Eclipse, and IntelliJ IDEA.

- Strong problem-solving skills and analytical thinking.

- Demonstrated abilities in customer relationship management with excellent interpersonal, communication, and analytical skills.

TECHNICAL SKILLS

- **Java Development**: Core Java, Advanced Java, Hibernate.

- **Database**: SQL (queries, joins, stored procedures).

- **Scripting Languages**: HTML, CSS, JavaScript.

- **Frameworks**: Bootstrap, Spring Boot, Hibernate.

- **IDE**: Visual Studio, Eclipse, IntelliJ IDEA, Sublime Text.

- **Web Technologies**: JSP, Servlet, JDBC.

CERTIFICATIONS

- **Java Full Stack Developer** – Profound Edutech Pvt. Ltd. (In Progress) (2025)
  Description: A comprehensive program covering front-end technologies (HTML, CSS, JavaScript, Bootstrap) and back-end development (Java, Hibernate, SQL).

- **Python Programming** – Grras Pvt. Ltd. (2024)
  Description: A comprehensive program covering Python fundamentals, object-oriented programming, libraries and frameworks (e.g., NumPy, Pandas), data structures, algorithms, file handling, and web applications using Flask.

PERSONAL PROJECT

Project Title: **Indian Doctors Network**
Description: A doctor-centric networking platform designed to foster communication and collaboration among medical professionals. The platform supports features such as medical posts, polls, quizzes, and more. Developed a robust Java-based application with an emphasis on Object-Oriented Programming (OOP), exception handling, and Java collections to enhance system efficiency and reliability.

Roles and Responsibilities:

- Designed, developed, and maintained core **Java** modules, following **OOP principles** and best coding practices for scalability and efficiency.

- Contributed to all stages of the **Software Development Life Cycle (SDLC)**, including requirement gathering, system design, implementation, and testing.

- Collaborated with cross-functional teams to ensure timely delivery of high-quality code, smooth integration of new features, and optimal performance.

- Worked on both **front-end** and **back-end** development, ensuring seamless integration between **UI** (using HTML, CSS, JavaScript) and **back-end** technologies (Java, Hibernate, SQL).

- Performed code reviews and optimized performance across all layers of the application.

EDUCATION

- **Masters in Computer Application**, SPPU University Pune – 66.89% (2024)

- **Bachelors in Computer Science**, SPPU University Pune – 68.31% (2021)

- **Higher Secondary Certificate** – 56.92% (2018)

- **Secondary School Certificate** – 79% (2016)

PERSONAL INFORMATION

- **Portfolio link:** https://portfolio-website-aedo.vercel.app/

- **Languages**: English, Hindi, Marathi

- **Marital Status**: Unmarried

- **Location**: Pune, Maharashtra, India
